My special business in future will be Filaina (Paranas) Terris. I have for nearly 20 years been aiming at perfection in this particular operation because it is of infinately greater importance than all others. We can say with entire conditince now, that all teeth can be saved permanently and for life by filling every cavity as soon as it can be seen; but if the cavities are large and the teeth have ached, they cannot be saved. Hence the impartance of frequent eximinations by the Dentist.

importance of frequent examinations by the Dentist.
This plan wilbe the cheapest ultimately and will obviste the necessity of artificial teeth and save a vest amount of suffering.

I have been residing in this city over twelve years, and have, during that time; fill all more than sixteen thousand [16,000] teeth. I warrant all my fillings now for 20 years and upwards, and expect to spend the remainder of my life in Lauraster. Thave the pleasure of referring to the older physicians of this city.
